

J = 36 bpm Bass-Jam #1 Lars Lehmann '06

⇒ - Play "1" on your Loopstation, Laptop, computer etc.

- After that add (2) - (7) (overdubs)

- Try to solo over the vamp using different scales. Find out which scales are the best for the "piece".

- Try different key-signatures. Write out (1) - (7) in the new key before playing it!

- Have fun! :)
